General PJCA Playing Conditions

- An expectation that all players, club officials (that is, coaches, managers, scorers, umpires and any other club representatives), parents and supporters demonstrate exemplary sporting standards and conduct at all times;
- An acknowledgment that every official has a responsibility to nurture and develop all players involved in the game;
- An acknowledgment that every official has a responsibility to encourage players to develop an appreciation and respect for the game of cricket, its history, laws, traditions and spirit of play;
- An acceptance of responsibility for conducting the competition in a fair, equitable, safe and efficient manner.

The PJCA Executive Committee acknowledges its responsibility in supporting coaches and officials to achieve these stated ideals.

Authority of PJCA Executive Committee

Suspension of Play for adverse conditions of ground, weather and light. "If at any time the umpires together agree that the conditions of ground, weather or light are so bad that there is obvious and foreseeable risk to the safety of any player or umpire, so that it would be unreasonable or dangerous for play to take place, then They shall immediately suspend play, or not allow play to commence or to restart. The decision as to whether conditions are so bad as to warrant such action is one for the umpires alone to make. The fact that the grass and the ball are wet and slippery does not warrant the ground conditions being regarded as unreasonable or dangerous. If the umpires consider the ground is so wet or slippery as to deprive the bowler of a reasonable foothold, the fielders of the power of free movement, or the batsmen of the ability to play their strokes or to run between the wickets, then these conditions shall be regarded as so bad that it would be unreasonable for play to take place."

- c) Play should only be suspended or delayed where playing conditions are dangerous to either the fielding or batting team. Play shall not be suspended or delayed because either team is disadvantaged by the conditions.

8.3 Disagreement as to fitness for play

- a) In the event of either umpire disagreeing as to the fitness of the ground for play, then the state of play existing at the time of disagreement shall continue.

- c) Where there is no official umpire present and no PJCA Executive available to adjudicate, each coach shall submit a report, in writing, through their Club Secretary to the PJCA Secretary within seven days of the game.
- d) The PJCA Executive Committee shall be empowered to award the game to the non-offending team where such suspension of play or delay is not considered to be justified in accordance with this Rule.

8.4 Lightning

Play shall cease immediately, in the event that a lightning flash is followed by thunder less than 30 seconds later. Play shall not resume until 30 minutes after the last lightning flash.

8.5 Change of venues

Venues may only be changed due to damage to a pitch or ground, and only with the consent of the PJCA Executive. Venues will not be changed if a ground is unfit for play due to weather conditions. Teams arriving at a ground that is deemed unfit for play due to damage may contact the PJCA Secretary or PJCA President to request a change of venue.

8.6 Ground conditions

- a) No ground is to be interfered with, or altered, in any way except where casual water may be removed.

 - 8:30am for a Stage 1 (U10s & U11s) game starting at 8:00am

9.2 Complying with playing times

- a) It is the responsibility of both teams to be prepared to commence play at the scheduled time.
- b) Play is to conclude after completion of the over in progress at the scheduled finishing time for all games unless an agreed result of the game has been achieved and both coaches agree to an earlier finish.
- c) Under no circumstance is a new over to commence after the scheduled finishing time.

9.3 Team arriving late

Teams shall be required to have the following number of players available at the ground within 15 minutes after the scheduled starting time:

- **Stage 1 (U10s & U11s)** - five players
- **Stage 2 (U12s & U13s)** - seven players
- **Stage 3 (U14s to U16s)** - seven players

If time is lost during the first session for a period of 10 minutes or more, the change of innings is to be delayed by a period of exactly half the time lost. A team batting throughout the first session is entitled to continue its innings until the delayed change of innings. The team batting second shall be entitled to receive only the same number of overs in its first innings as was bowled by that team.

9.5 Responsibility of scorers

Scorers from both teams are to sit together to regularly check scores. Full details of batting, bowling, progressive run total and scores at each completed over, are to be recorded by scorers of both teams.

Teams are encouraged to Live Score games using the "Live Scoring App", however 1 hard copy book should always be used as well.

9.6 Scoring disputes

In the event of a dispute as to the scores in each book at the end of play, the umpires or team officials are to check and compare the batting scores. If a dispute still exists, score books and reports are to be forwarded to the Secretary of the PJCA, by Monday 6.00pm after completion of the game.

If using E-Scoring, please forward a PDF version of the live score to the Secretary of the PJCA, by Monday 6.00pm after completion of the game.

9.7 Recording of game result

The game result along with full details of batting and bowling are to be recorded on *MyCricket* by 11.59pm on the Tuesday after the completion of a game. The result and other details are to be checked by officials from both teams and confirmed on *mycricket*. Any disputed games are to be referred to the PJCA Secretary no later than 9.00pm the day after the game. The failure to observe these requirements may result in a fine or loss of points for offenders.

9.8 Final round results & Semi-final results

After both the last round of the regular season and semi-finals the PJCA Secretary is to be notified of results within 24 hours of completion of each game.

10. Bowling Restrictions for all Age Groups

The four leading teams in terms of competition points will participate in semi-finals as follows:

- First place versus fourth place

In the event of the semi-final or final being washed out or abandoned the higher placed team will be awarded the game.

12.6 Coaching during Semi-finals and Finals

In all semi-final and final games, team officials, whether umpiring or not, are not permitted to coach or instruct during play. Messages may be conveyed through a substitute player during breaks in play, provided this does not delay play. Players are entitled to be informed of the current score and/or the required run rate.

13. Records & Trophies

13.1 Batting and bowling averages

- a) It is the responsibility of each club to ensure individual statistics for batting and bowling are entered into *mycricket* within 7 days of the completion of the final round of the season for each age group.
- b) Semi Final and Final performances do not count towards averages.

13.2 Trophies

The PJCA shall present trophies to (subject to minimum criteria):

- players in premiership winning teams in each age group and division;
- players with the highest batting average and aggregate in each age group and division;
- players with the lowest bowling average and highest bowling aggregate in each age group and division;
- Wicket Keepers taking the most dismissals in each age group and division.

13.3 Club Championship

The PJCA Club Championship will be awarded each season based on the following criteria:

- a) Each team will be awarded points based upon its finishing position after completion of the Minor Premiership as follows:

Position	Points
1 st	20
2 nd	18
3 rd	17
4 th	16
5 th	14
6 th	13
7 th	12
8 th	11
9 th	10
10 th	9
11 th	8

- b) Where two or more teams finish in an equal position in any age group / division, the places for the purposes of allocating these points shall be determined as per local rule 12.2.
- c) The points gained by each club's five highest placed teams will be added to determine the Club Championship Score (CCS) for that club.
- d) Should a club have less than five teams, they shall receive eight points for each team as required to make up to five teams (e.g. if a club has only three teams, they shall receive eight points for the fourth and fifth teams they don't have). The club with the highest CCS shall be declared PJCA Club Champions for that season.
- e) Where two or more clubs have the same highest CCS, a count-back shall be used to determine the PJCA Club Championship winner as below. Based on the points allocated in 13.3(a):
- the club with the most number of teams on 20 points shall be declared the winner;
 - if still equal, the club with the most teams on 18 points shall be declared the winner, and so-on for the five highest placed teams only for each club;
 - if still equal (once the semi-finals & finals have been played) the club with the most Premiership winning teams shall be declared the winner;
 - if still equal, joint PJCA Club Champions shall be declared.
- f) Where three or more clubs are involved in a count back situation, once a club has been eliminated by a step in part 13.3(d), they shall take no further part in the count-back calculations.

EXAMPLE:

An example of the application of rule 13.3 is as follows:

Five clubs have the following points for their five highest placed teams at the end of the Minor Premiership:

Club 1: 20, 20, 18, 18, 16 ~ CCS Total = 92

Club 2: 20, 20, 18, 17, 17 ~ CCS Total = 92

Club 3: 20, 18, 18, 18, 18 ~ CCS Total = 92

Club 4: 20, 18, 18, 17, 16 ~ CCS Total = 89

Club 5: 20, 18, 17, 14, 12 ~ CCS Total = 81

With Clubs 1, 2 & 3 all on equal points, we go to a countback situation as per part (d).

Club 3 is eliminated at step (i) because it has only one team on 20 points compared to Club 1 & Club 2 with two each.

Club 2 is eliminated at step (ii) because it has only one team on 18 points compared to Club 1 with two.

NB: Even though Club 3 has four teams on 18 points, it is not considered in step (ii) because it was eliminated at step (i).

Appendix A: U12 & U13 (Stage 2) Batting Rotation

This appendix is to be used as a guide to understanding the intention, interpretation and application of the local playing conditions in regards to the compulsory rotation of the batting order.

How is the batting line-up set?

- The batting order for the season is determined by the order of batting in the first innings of the season.
- Once all players have batted once, the order they have batted in shall become the batting order for the season.

What if a player is absent or has been rostered out of the team on her/his turn to bat?

He/she misses out and remains in the order in her/his normal place and does not bat until her/his turn comes around again.

Tip: before the first game of the season, create a list of all registered players in your team in the batting order that you are setting for the season. This will help you ensure that even if a player misses a game, the player can be easily reinstated to the order in the correct position when the player returns.

Where a player remains not-out from the previous innings, where does he/she bat in the next game?

Where a batter remains not-out at the conclusion of an innings, he/she shall open the batting in the next innings of that team unless he/she had faced:

- Under 12 & Under 13 - 25 balls or more

Where a player remains not out at the end of the innings but has faced less than 25 balls - The batter will commence their next innings as opener and will be entitled to face 35 balls

Where the above conditions have been met the not-out batter returns to her/his place in the batting order and does not open the batting in the next innings.

What if a player doesn't want to open?

- It is suggested that all coaches and managers do everything possible to encourage all players to bat in their place in the order.
- While either opening bowler is still bowling her/his first spell, a batter may be moved down the order. If a player is moved in this fashion he/she must be the next batter in at the fall of the first wicket (or retirement) after both opening bowlers have completed their opening spell.
- A player who is moved down the order IS NOT to be substituted in the batting line-up, those directly behind her/him in the batting order are to move up.
- If a moved player does not bat that week because no wicket fell after the opening bowlers had been replaced, then he/she is to open the following week, and the same as above shall apply.
- If a player is moved down the batting order in this manner, he/she is to return to her/his original/nominated place in the batting order next time it comes around NOT the order he/she just played in.

Regardless of the above, no player shall be listed to bat twice in any one innings.

Does the compulsory batting rotation apply to semi-finals & finals?

No, teams are free to set their batting order any way they see fit in both semi-finals & finals.

What if we have a situation that's not covered here?

Use common sense, remember the intention of the rule is to maximise participation for all players.

Talk to the other coach/manager and agree on the best approach. If you can't agree, do what you think is best and report it at the conclusion of the game.
